## STREET ART & SPOKEN WORD

Actividad en inglés  
para alumnos de ESO o bachillerato  
con dos partes en las que se explorarán  
distintas vertientes del arte urbano:  
poesía y expresión plástica

# GROUP DISCUSSION FOR TEENS

## STREET ART & SPOKEN WORD

Actividad en inglés para alumnos de ESO o bachillerato  
Dos dinámicas en las que se explorarán distintas vertientes  
del arte urbano: poesía y expresión plástica  
Un instituto distinto cada mes de septiembre a junio  
durante dos horas (con media hora más de descanso)  
Un jueves o viernes por la mañana de 11 a 13:30 h.

### STREET ART

**In most cities and in many suburbs street art is a pervasive feature of the urban environment. Who makes street art and why? How do we draw the line between vandalism and legitimate artistic expression? Should it be preserved or is it necessarily ephemeral? In this workshop we will explore all these questions and more as we analyze this most democratic form of sharing and communicating.**

### SPOKEN WORD

**Word based performance art, commonly known as “spoken word”, is both a pillar of hip-hop culture and a truly American descendant of oral tradition. More importantly, it is an accessible outlet for personal expression among socially conscious teens even if English is not their native tongue. The young participants in this EFL workshop will use poetic devices, such as rhyme and meter, and harness pronunciation features like inflection, intonation, and word stress to become spoken word performer/authors.**
